The University of Bologna is committed to the values of sustainability and is fully aware that its activities can produce significant impact. Therefore, in order to take up the challenges that the contemporary world imposes and to guide all institutional actions towards the pursuit of sustainable development, the University has integrated the 17 Goals in its mission and strategy, from the Strategic Plan to the many activities of the University. Since 2016, to systematically monitor the progress towards SDGs, the University has developed the Report on U.N. Sustainable Development Goals. This public document provides a reading of our contribution in favor of the 17 SDGs. AlmaGoals website shows all the contributions and the commitment of the University of Bologna towards the advancement of the United Nations 2030 Agenda, by presenting the information described in this report. Each of the 17 Sustainable Development Goals is reported on in relation to the four university dimensions of activities carried out at the University of Bologna (teaching, research, third mission and institution) using a set of metrics specially formulated to match and integrate with the institutional documents adopted by the University of Bologna. The Sustainable Development Goals are for all and everyone must take his part. The involvement, collaboration and cooperation of everyone is essential for the formation of a solid base, where it is possible to build a different present and a sustainable future. We must work collectively and we, as institution, give the opportunity to create the network that face the global challenges. Together we can.

Francesco Ubertini
Rector
Alma Mater Studiorum - Università di Bologna

THE IMPACT RANKING: 6TH

The University of Bologna is so proud that its efforts towards the SDGs have been certified by Times Higher Education.

In 2019, it was ranked as 6th in the World, among more than 500 universities. This ranking is the only global performance table that assesses universities against the United Nations’ Sustainable Development Goals.

More in details the University of Bologna is:

4th for No Poverty
23rd for Good Health and Well-being
21st Quality Education
4th for Gender Equality
4th for Decent Work and Economic Growth
38th for Industry, Innovation, and Infrastructure
30th for Reduced Inequalities
73rd Sustainable Cities and Communities
3rd for Peace, Justice and strong institutions
21st for Partnerships for the Goals.

1. END POVERTY IN ALL ITS FORMS EVERYWHERE

The doors of the University of Bologna are open to refugee students thanks to Unibo4Refugees project. Students get the chance find out about the opportunities for study and financial aids and draw up an educational plan for rebuilding their future. Through this action, 14 asylum seekers from different countries registered in single learning activities and 11 refugees enrolled in degree programmes for the Academic year 2019/2020. Most of these students come from Sub Saharan Africa, some others come from Pakistan, Mongolia, Syria, Ukraine.

2. END HUNGER, ACHIEVE FOOD SECURITY AND IMPROVED NUTRITION AND PROMOTE SUSTAINABLE AGRICULTURE

The Progetto KM0 is coordinated by the Azienda Agraria of the University of Bologna with the scientific contribution of the Department of Agricultural and Food Sciences, in order to ensure the highest quality of the supply chain. This initiative aims to promote a closer relationship between the city and the countryside, encouraging consumers to know and appreciate the typical agricultural products of the area, following the seasonal trend. This project let consumers know about the place of origin, the cultivation technique and above all, the consumption of products in full ripeness.

In addition, the farm also cultivates minor species of fruit trees and there are numerous varieties, some of which can be considered real “ancient fruits”.

COOPERATION, SOCIAL AND INDUSTRY ENGAGEMENT RESEARCH PROJECTS
**THIRD MISSION**

**LOCAL COLLABORATION**

**Rizzoli Hospital**
The Rizzoli Orthopaedic Institute comprises treatment and research with an high level of healthcare. It hosts the Cell and Musculoskeletal Tissue Bank, which is the regional referral center for the collection, conservation and distribution of cells and tissues. The Institute puts the patients to the centre of the activities, guaranteeing as far as possible a familiar setting, with particular attention to the younger guests.

**Sant’Orsola-Malpighi Hospital**
The Bologna University Hospital Authority St. Orsola-Malpighi Polyclinic develops and delivers multi-specialist research, education and training in an integrative manner. The Hospital promotes innovation and pursues the highest degree of both patient/customer care and the training of medical students, as well as expanding the full potential of its skilled staff through goal sharing and assuming responsibility for any results.

**INSTITUTION**

**HEALTHCARE SERVICES**

**Pediatric clinic**
The University of Bologna’s Outpatient Clinic for Podiatry provides the public with a complete range of services, with a high standard of assistance, for the well-being and health of the foot and provides podiatry services at reduced rates. The Outpatient Clinic is equipped with four podiatry units for the prevention and treatment of diseases of podiatry competence.

**Dental care**
Students, teaching staff and technical-administrative staff (on duty and retired, including dependent children and spouses) can take advantage of the dental care service at the Dental Clinic of the Department.

**Free mental health support for students**
The initiative is managed by a psychologist and psychotherapist. At the end of the counselling/intervention process, no report or certification will be issued to the user.

**PSYCHOLOGICAL SUPPORT**

For students: The service is aimed at young people with emotional and relational problems, affective and behavioural disorders, difficulties in university and/or working life, and is free of charge for students of the University of Bologna and for all young people aged between 18 and 28 years who use the health service in Bologna.

For the staff: The service is aimed at teaching and technical-administrative staff who wish to express in a space totally confidential psychological discomforts and/or relational and communicative problems in the workplace.

**INSTITUTION - EXCELLENCE UNITS**

**The Paediatric and Evolutionary Cardiac Surgery Unit**

The Paediatric and Evolutionary Cardiac Surgery Unit is part of the Cardiothoracicvascular Department, in which it is the only accredited centre in the Emilia-Romagna region for the surgical treatment of congenital heart disease. The activity performed consists in the treatment of all congenital heart diseases in patients of any age. This unit has been designated as the reference centre of the Emilia Romagna Region for the surgical treatment of congenital heart disease.

**Haematology Institute and DIMES**

Istituto di Ematologia e di Clinica e Ricerche di Sperimentale (DIMES), works together with national healthcare. The mission is the diagnosis of haematological and oncological diseases, the assistance and treatment of patients, through multidisciplinary methods and with the development of innovative approaches.

**CROSS CULTURAL COUNSELLING**

The Cross-Cultural Counselling Service was established to prevent particularly critical situations relating to adaptation, study, excessive demands and complaints, isolation, conflicts with other students and/or teachers, practical environmental problems, etc. through a cross-cultural perspective. The service is free of charge and offers: assessment and analysis of psychosocial-cultural needs; first assistance and/or orientation actions.

**SEXUAL DISEASES**

Our students can have a free access to the “Sexually Transmitted Disease Center” of our University hospital. Pathologies treated and service provided: Specialist visits and treatment of sexually transmitted diseases and genital localization diseases, information, education, prevention and counselling (also psychological).

**CUSB**

Our students have free access to sports facilities managed by the Bologna University Sports Center. Also for local schools it is possible to access to the facilities at no charge during the free events/projects dedicated to them. For the local community, only the access to the garden and to the refreshment areas is free of charge. Fee-based access to sports facilities managed by the Bologna University Sports Center: facilities, sports courses (competitive, non-competitive, amateur sports) and services organized by CUSB are open to both students and employees of the University of Bologna as well as to the local community (citizens - sports clubs - associations) with discounts for CUSB-members.

**OUTRACE**

In order to enhance outdoor spaces as necessary elements to increase the quality of life in university spaces and to promote a correct lifestyle, Outrace sports equipment was inaugurated in 2019 at the Multicampus Project. The structure can be used by the University Community and citizens to carry out gymnastic activities, it also fits harmoniously into the context of the campus park.
4. ENSURE INCLUSIVE AND QUALITY EDUCATION FOR ALL AND PROMOTE LIFELONG LEARNING

PROGRAMMES OFFERED AND MAIN RESULTS

- Degree programmes: 221
- Degree programmes taught in English: 354
- Masters’ programmes and post-graduate/lifelong learning programmes: 111
- Courses with at least three quarters of students satisfied with the course: 77.8%
- Graduates: 19,119
- Graduates within regular enrollment: 67%

PARAMETERS FOR QUALITY EDUCATION

STUDENT ATTRACTIVENESS

- Students enrolled in Second cycle degree programmes (from other universities): 9,833
- Incoming exchange students: 3,099
- International students (UE and Extra-UE): 7.8%

SOCIAL INCLUSION

- Value of scholarships (merit and status based): 13,083,614 €
- Students followed by the Service for disabled

Enrolled University students by gender (first, second and single cycle degrees)

- Male (M): 37,427
- Female (F): 46,500

UNIVERSITY QUALITY ASSURANCE

The University of Bologna has an Internal Quality Assurance System involving a self-assessment that allow the University to improve the quality of its study programmes. This process aims provider an adequate response to the expectations of all actors who have an interest in the offered training service: students, families, companies, institutions, etc. The system envisages the periodic analysis of significant data (such as the number of graduates in the course, the views of the students and the employment status of the graduates) collected both by the University and by the National Agency for the Evaluation of the University and Research System (ANVUR).

### WELCOME DAY FOR INTERNATIONAL STUDENTS

Every year the University of Bologna welcomes its international students to the university community and to the city. With this event, the University intends to help international students in their transition to the university life in Bologna. As such, the event comprises presentations about university facilities, services and opportunities as well as networking activities to build and foster a sense of community among international and Italian students and ambassadors. The 2019 Welcome Day for International Students included, among others, a stall presenting the actions implemented by the University of Bologna to achieve the SDGs of the UN 2030 Agenda.
UNIBO OPEN KNOWLEDGE (BOOK)

UniBO Open Knowledge (BOOK) is an initiative of University of Bologna designed to develop and deliver MOOCs (Massive Open Online Courses). All courses are open to the general public and a specific certification is provided to every learner who complete a course.

The course Higher Education for Sustainable Development Goal introduces the concept of Sustainable Development and the recent debate and policies promoted at the global level to face urgent environmental and societal challenges.

UNIBOCULTURA

Every year, the Alma Mater organizes several cultural events intersecting all its fields of study: literature, art, philosophy, science, digital technology, law and medicine. UniboCultura events bring these diverse subject areas together around current issues and topics. In 2019, particularly:

- **LA FORZA DELLE LETTERE**: from 1 February to 13 March 2019 - 6 meetings
- **LEOPARDI ALLO SPECCHIO**: from 1 to 12 April - 7 meetings
- **IO SONO/IO NON SONO**: since March a series of meetings representing different aspects of the discussion around identity
- **CAMMINARE NEI LUOGHI DEL SAPERE**: Guided tours to the Palazzina della Viola, Palazzo Poggi, Palazzo Marscotti Brazzetti, Palazzo Herculani primavera 9 Sundays from February to May/ Autumn 10 Sundays from October to December - total participants about 2,000 people
- **ZAMBÈ “VERSO LA LUNA”**: the summer review takes its title from the anniversary of the trip to the moon - from 18 June to 19 July - 13 meetings
- **INNOVATING THE FUTURE, SINCE 1088**: The photographic exhibition "Innovating the future, since 1088", set up by the University of Bologna with the collaboration of the Unibo Historical Archive. Through the streets of Bologna, the history of the Alma Mater and its illustrious figures will be retraced, alongside those of today’s students. In this flow of past and present, the University presents itself highlighting its ability, since 1088, to innovate, through its students and its people: the Alma Mater was born by students for students and, still today, tenaciously pursues the path of innovation.

GREEN OFFICE (GOAL)

The Green Offices of the Alma Mater (GOAL) are a project with the aim of strengthening the relationship between the components of the University Community (students, staff and teachers) and promoting planning on sustainability issues. GOALS represent a community action and involve young people in building the future of the University and in defining sustainability strategies and policies. The synergy between the various actors involved allows to concretize the enthusiasm and ideas coming from all the University Community, through the implementation of projects and initiatives related to the various sustainability issues.

DEPARTMENTS OF EXCELLENCE

14 of our 32 Departments were selected by the MIUR (Ministry of Education, University and Research) as Departments of Excellence. This initiative gives the recognition to 180 Italian Universities Departments for the quality of the research and the quality of the development project.

The University of Bologna applies the national policy against any form of gender pay gap as stated in the Italian Constitutional Chart, art. 37, where it is written: “Working women are entitled to equal rights and, for comparable jobs, equal pay as men”. Thus, at a specific academic position corresponds a specific pay equal for both genders. To monitor the application of this national policy as well as to monitor its position the overall position in term of gender equality in teaching, research, career progression and leadership positions, UNIBO provides its data per year in its Gender Equality Annual Report. In such document UNIBO also provides a specific index named “University gender inequality index (UGII)”.

The “Guarantee Committee for Equal Opportunities, Employee Wellbeing and non-Discrimination at Work” in 2019 held 2 seminars to promote and sensitize the university community about the gender violence and its representation and the gender equality in the University of Bologna. In addition, it has promoted the creation of the “Red Bench against domestic violence” at the Rectory of the Alma Mater to remember all the women who have experienced violence.

The University of Bologna has established a Technical-Scientific Committee tasked with preparing guidelines on the University’s gender language, established under the supervision of the Vice-Rector for Human Resources. In 2019, the Committee drafted guidelines aimed at raising awareness in the University on the daily use of a language that takes into account gender differences in institutional documents and the forms produced by the General Administration Areas, as well as in University communications. The document will be finalised and disseminated in 2020.

Through PLOTINA project and our Gender Equality Plan (GEP) we promote and favour women’s access to university studies even in those areas of study traditionally most frequented by men. The Gender Equality Plan (GEP) is a flexible tool, comparable to a Positive Action Plan, which is constructed taking into account the peculiarities and needs of each single University or Research Center. Moreover, to contrast gender biases in the evaluation and recruitment of professors and researchers, we produced and diffused a formative downloadable video. Last, but not least, our University participates in a national project that allows transgender students to adopt the name they want without being discriminated against at any time during their university career.

1) Guarantee Committee for Equal Opportunities, Employee Wellbeing and Non-Discrimination at Work – CUG, the Harassment Adviser; 2) Vice-Rector of Human Resources; 3) Delegate for Occupational Welfare; 4) Delegate for Equal Opportunities; 5) Harassment Adviser.

Baby Pit-Stop is a special quiet area for students, PhD students, research fellows, academics, staff, visiting friends and relatives moms to feed and change their babies at the University of Bologna (Sustainable Multicampus Project).

In 2019 the Plastop project, launched in 2018 in the framework of the Sustainable Multicampus Project with the aim of significantly limiting the use of disposable plastic by the University Community, was further developed. Actions were planned to encourage the use of personal stainless steel bottles, and the experimental installation of water dispensers (filtered directly from the water network) and the experimental replacement of plastic cups in some vending machines was realised. For the supply of Alma Mater water bottles, a public tender was held, for which the successful tenderer guaranteed a production with a neutral environmental impact, thanks to a specific replanting project, in addition to the collaboration with the University of Bologna on initiatives in the field of environmental sustainability. Since the start of the project, the installation of the dispensers has allowed savings of about 100 thousand half-liter plastic bottles.
7. ENSURE ACCESS TO AFFORDABLE, RELIABLE, SUSTAINABLE AND MODERN ENERGY

The University of Bologna together with AMANI (an association focusing on access to energy in Africa) organized this meeting and reported about their work. Universal access to energy is the seventh of the 17 goals of the 2030 Agenda.
8. PROMOTE SUSTAINED, INCLUSIVE AND SUSTAINABLE ECONOMIC GROWTH, FULL AND PRODUCTIVE EMPLOYMENT AND DECENT WORK FOR ALL

The 3rd Brown Lecture was carried out within the agreement between the University of Bologna and Brown University - Keynote Speaker Professor Richard M. Locke, Provost, Brown University. The world of global supply chains is undergoing a phase of extreme uncertainty and experimentation, that translates into searching for innovative strategic directions and new institutional structures to better manage recruitment and work itself.

### ENGAGEMENT IN ACADEMIC ENTREPRENEURSHIP

Academic entrepreneurship refers to the interaction between university, industry, markets and society at large and encompasses different channels (patents, licenses, university-industry collaborations, academic consulting and new venture creation) through which the output of academic research can be conveyed to the market. The actions to support academic entrepreneurship can be grouped according to five main conceptual dimensions, representing five pillars on which the strategy builds: inspiring and raising awareness; scouting of ideas; pre-incubating services; incubating; accelerating and enabling growth.

### INITIATIVES SUPPORT ADMINISTRATIVE STAFF WITH DISABILITIES

Our University pays particular attention to people with disabilities or in situations of personal hardship, to whom specific initiatives aimed at inclusion are promoted. Among these initiatives there is the creation of the Mobility and Labor Protection Office which aims to promote targeted placement throughout the working life. This is accompanied by a widespread policy of sensitization of working contexts and the creation of a collaboration network both within and outside the University. Finally, the office provides for the mandatory obligations according to the provisions of the current legislation on the right to work of persons with disabilities.

### CUG AND CONFIDENTIAL COUNSELLOR WITH DISABILITIES

The University of Bologna combats all forms of discrimination in particular through a Committee, called CUG “Guarantee Committee for Equal Opportunities, Employee Well-being and non Discrimination at Work”, and through a Confidential Counsellor.

The CUG has propositional, consultative and monitoring functions, fostering the dissemination of a culture of equal opportunities, ensuring well-being and non-discrimination at work, within the competences laid down in article 14 of the University Statute. It uses the University services dedicated to the promotion of well-being at work, operating in collaboration with the University Confidential Counsellor.

The Confidential Counsellor appointed by the Rector, is a super partes expert called on to prevent, manage and intervene in cases of harassment, mobbing and other forms of discrimination.

ReActor is an informal school of entrepreneurship and innovation for scientists and researchers willing to explore the market potential of their discoveries. With a strong hands-on approach, ReActor aims at igniting an entrepreneurial mindset in its participants, helping them to delineate and implement a solid venturing path from lab to market. The training format is the only one of its kind in Italy and rests on three pedagogical pillars: 1) 13 weeks of intense training and peer-based learning, 2) extensive mentoring with successful entrepreneurs and 3) additional training experiences in some of the most vibrant entrepreneurial ecosystems in the world. Participation to ReActor is completely free for the selected teams, including the training periods abroad. After two years of experimentation within the University of Bologna, in 2018 ReActor was scaled up at the national level through the support of Fondazione Golinelli which became the project leader, with the University of Bologna serving as the first strategic partner. Thanks to its early success, today ReActor counts as many as 8 partners including the University of Bologna, Modena and Reggio Emilia University, CNR Research Area of Bologna, Rizzoli Orthopedic Institute, Parma University, Ferrara University, Padua University and the University of Pisa. The scientific direction of the projects is entrusted to University of Bologna’s professor Simone Ferriani. In the 2019 edition 13 teams were selected to join the program and 5 teams were awarded additional grants to continue their training abroad for 4 to 6 weeks periods. In the 2020 edition 8 teams were selected and 3 of them were awarded with the international acceleration programs.

ReActor aims at igniting an entrepreneurial mindset for scientists and researchers willing to explore the market potential of their discoveries. In the 2020 edition 8 teams were selected and 3 of them were awarded with the international acceleration programs.

The club, launched in 2017, is an open community of the University of Bologna faculty members and scholars from all of the disciplines aimed at spreading entrepreneurial culture within the Alma Mater network. The club provides participants the chance to:
- learn about entrepreneurship;
- be inspired by speakers;
- contribute with ideas and competences to support entrepreneurship within our University.

Almacube is the incubator and innovative hub of the University of Bologna, with the aim of becoming a reference in Italy for the development of startups and spin-offs among universities. In 2019 Almacube registered a significant growth in all of the activities related with its 3 integrated business units: - University Spin-off Unit: transform the best technological and research projects of the University into companies. The 17 incubated spin-offs obtain easy access to the University facilities, laboratories and know-how of our community, as well as the entire network of Confindustria Emilia Area Centro.
- Startup Unit: Every year, about 300 ideas are nominated for StartUp Day, the event organized by the University of Bologna and Almacube to promote the growth of youth entrepreneurship that hosts more than 2500 participants. The 30 selected startups enter the incubation program, which begins with a period of training. Afterwards, 10-15 projects are selected and supported by Almacube staff and mentors for 10 weeks. The best startups enter the final phase, during which they are financially supported with 25k € of funding and services, in order to get ready to present them to investors, during the next edition of StartUp Day.
- Corporate Unit: 40 students and recent graduates of the University of Bologna work in multidisciplinary teams, to face innovation challenges of companies with which Almacube collaborates. The programmes are part of international networks of universities and research centres such as Stanford and CERN, involving around 300 universities worldwide. This year Almacube run more than 30 projects with companies and organizations from different industries such as IMA, Barilla, Legacoop Bologna, Sanofi Genzyme, CAMST, YNAP and many more. In 2019, Almacube collaborated with the University of Bologna to organize the fifth edition of StartUp Day, the most important event in Italy for youth and academic entrepreneurship. With more than 2500 participants, StartUp Day 2019 confirmed the growth of the event: almost 300 submitted ideas from students, 30 new entrepreneurial projects born at the event, more than 30 incubator, accelerators, crowdfunding platforms and other realities from the world of innovation, matching between investors and startups and many guests from the field of innovation. During 2019, Almacube organized more than 30 events for its community made up of students, entrepreneurs, professors, young professionals and curious. With the aim of keeping the community updated on topics such as the startup world, social entrepreneurship, cultural and creative innovation and technology, it involved 800+ participants.

STUDENT OMBUDSMAN

The role of the Student Ombudsman, envisaged in art. 15 of the University Statute, is to receive reports on dysfunctions and restrictions affecting the rights of students. This independent body does not report hierarchically or functionally, in any way, to University Bodies and exists solely to ensure compliance with current regulations. Students can contact the Ombudsman to report any forms or types of abuse, dysfunctions, shortfalls, delays, violations of the law or the principles of good administration, failure to respect the values and rules laid down in the University’s Code of Ethics or the principles and rights specified in the University Statute, by teachers or other University personnel, or attributable to University Bodies or the general or peripheral Administration in the conduct of administrative activities, for acts or omissions or conduct that is solely intended to be intimidating, hostile, degrading, humiliating or offensive. The Student Ombudsman monitors the teaching, research and service activities of the University of Bologna with an impact on the rights and interests of the University’s students, to ensure that they are carried out in compliance with the values and rules laid down in the University’s Code of Ethics and the principles and rights specified in the University Statute.

THE GUARANTEE COMMITTEE FOR EQUAL OPPORTUNITIES, EMPLOYEE WELLBEING AND NON-DISCRIMINATION AT WORK – CUG

This committee makes proposals, provides consultation and monitors the development of a culture that promotes equal opportunities, enhances employee wellbeing and prevents discrimination, with reference to Italian current legislation and art. 14 of the University Statute. It availal of the internal services for the promotion of employee wellbeing provided by Alma Mater and works closely with the Harassment Advisor.

Our University’s mission has always included a fundamental role whereby it promotes cultural events directed firstly at students but also at other kinds of public participation.

UniboCultura gathers in one ample programme all the non-specialistic events organised and promoted by the University and its various structures, often in collaboration with other cultural entities – plus institutional and economic actors – from its surrounding community.

- UNIBOCULTURA
  - 229,925 M² OF SMART BUILDINGS
  - 5,224,679 M² OF GREEN AREAS
  - The ration parking area is 2% of the 80000 m² of the total area of campus.

- PROMOTE CULTURE AND HERITAGE
  - BOLOGNA UNIVERSITY MUSEUM NETWORK - (SMA): brings together the corpus of 14 University Museums and Archives. Only the Palazzo Poggi Museum (the Rectorate) has a paid entrance, while the other 13 is free access.
  - LIBRARY SYSTEM - SBA: All SBA users have free access to the libraries and their resources for studying and researching purposes.
  - HISTORICAL ARCHIVE: the structure of the University dedicated to the conservation and enhancement of its documentary heritage.
  - BOTANIC GARDEN HERBARIUM: one of the earliest in Europe, containing collections of dried plants dating from the sixteenth century onwards. The Botanical Garden is about 5 acres in extent, on which more than 5,000 examples of local and exotic plants are growing.
  - LA SOFFITTA: a research center of arts (cinema, music, theater, dance). It organizes performances, workshops and exhibitions all over the year.
  - COLLEGIUM MUSICUM: university orchestra that involves yearly 300 students, plays 15 concerts equal to 400 hours of music.

- INSTITUTION
  - 14 UNIVERSITY MUSEUM
  - 18,000 HOURS OPENING
  - 192,000 VISITORS

- GEOGRAPHICAL DISTRIBUTION OF BUILDINGS

The data refer to the indoor surface area of the buildings and do not include outdoor areas.

The first edition of Nastro Verde was held in 2019, a showcase of sustainable movies with the aim of inviting the entire University Community to approach the environmental issues and the challenges to achieve sustainable progress that respects the ecosystem and environment. Five films were proposed in an integrated and critical vision to inform, raise awareness and awaken a conscious and participatory opinion. An expert introduced each film. The initiative took place at the Bologna Campus (DamsLab’s Auditorium) and the Cesena Campus (Psychology major hall), live streaming, with an average of 180 participants per evening in the framework of the Sustainable Multicampus Project. The initiative was carried out as part of the Sustainable Multicampus project in collaboration with the Department of Arts and DamsLab and included, on the launch evening, within the ASVIS Sustainable Development Festival. On the occasion of the showcase, the trailer “A more sustainable future” was created, with the involvement of students from the Audiovisual and Multimedia Laboratory of the Master’s Degree in Cinema Television Multimedia Production (CITEM) of the Department of Arts.

In the framework of the Sustainable Multicampus project Unibo students and staff can purchase annual public transport passes for Bologna and the surrounding area at a subsidised price. There is also an agreement with the city Bicycle station in order to provide discounts on price for reparation and parking. The University completely renewed its car fleet, switching from owned cars to rented cars, mainly electric or hybrids. Moreover the use of the cars is managed by a car-sharing mode.
14. CONSERVE AND SUSTAINABLY USE THE OCEANS, SEAS AND MARINES RESOURCES FOR SUSTAINABLE DEVELOPMENT

Spiaggialonga is a three-day event dedicated to sustainability, that was first held in 2019. The initiative is the brainchild of a group of university students and was organised as part of the Sustainable Multicampus project. A series of in-depth conferences were organized on the Campuses of Ravenna, Cesena (Cesenatico headquarters) and Rimini to raise awareness among the University Community and citizenship on sustainable issues. The activities then materialized in a collective action: a morning dedicated to cleaning the beaches of Ravenna, Rimini and Cesenatico, helped by children from both primary and secondary schools. University students, in addition to attending the event, volunteered to welcome the children and youngsters, together with the University staff, as well as volunteers from Legambiente. Over 1800 people took part to the event, testifying a great enthusiasm among young people and volunteers of all ages but also a great interest for the plastic-free theme of important companies that participated.
15. PROTECT, RESTORE AND PROMOTE SUSTAINABLE USE OF TERRESTRIAL ECOSYSTEMS, SUSTAINABLY MANAGE FORESTS, COMBAT DESERTIFICATION, AND HALT AND REVERSE LAND DEGRADATION AND HALT BIODIVERSITY LOSS

The University of Bologna Experimental Farm - AUB, since 1974, support research and experiments conducted by departments of then School of Agricultural Sciences and Veterinary Medical Sciences.

The Ozzano Centre has a teaching cow-house for dairy cattle, geared to experimentation with different feeds and their yield.

One section of the Farm is applying an ongoing protocol of organic agriculture, a subject of wide topical interest yet controversial in the technical and scientific world.

Today the Farm puts on services to design, implement and maintain areas of greenery throughout the University. It also runs a canteen at the Cadriano Centre for teaching and experiment. In general, it is an ‘observatory’ onto agriculture as practised in our country, fielding the kind of questions that consumers and agriculturists expect the academic world to answer. This whole multi-faceted facility forms an important training-ground for students.
16. PROMOTE PEACEFUL AND INCLUSIVE SOCIETIES FOR SUSTAINABLE DEVELOPMENT, PROVIDE ACCESS TO JUSTICE FOR ALL AND BUILD EFFECTIVE, ACCOUNTABLE AND INCLUSIVE INSTITUTIONS AT ALL LEVELS

**TEACHING**

The University of Bologna widely supports the goals and activities of the Magna Charta Observatory of Fundamental Values and Rights (MCO) signed by 889 Universities from 88 countries. Since 1988, the Magna Charta Observatory is the global guardian of fundamental university values set out in the Magna Charta Universitatum and assists universities and higher education systems to operate effectively in accordance with the values of academic freedom and institutional autonomy as a guideline for good governance and self-understanding of universities in the future.

During the three-days event on welfare organized by the Municipality of Bologna, the University of Bologna presented its training, research and third mission activities, with a particular focus on the issues of working wellbeing, inclusion, right to study, cooperation for development and sustainability.

In the website of the Alma Mater all the institutional documents and regulations, including planning and reporting documents are accessible and available. Also, the University of Bologna has signed the Berlin Declaration on open access to knowledge in the Sciences and Humanities.
17. STRENGTHEN THE MEANS OF IMPLEMENTATION AND REVITALIZE THE GLOBAL PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT

University Corridors for Refugees (Ethiopia-Unibo 2019-21). The initiative was created to allow refugee students in Ethiopia to continue their academic career at the University of Bologna. The project is promoted by the Alma Mater and UNHCR Italy - UN Agency for Refugees and carried out thanks to the support of many partners.
THIRD MISSION

ALMAENGAGE

AlmaEngage is a virtual structure designed to monitor, support and promote all the initiatives of development cooperation and social engagement of the University of Bologna at both the local and international levels. As such, AlmaEngage is part of a broader process by which universities are enlarging their scope. Within this process, universities actively engage in social and public issues and transfer knowledge benefiting society as a whole. This virtual structure aims to promote and carry out initiatives that sensitize and stimulate academic and non-academic stakeholders to development cooperation.

CELEBRATION OF THE 20TH ANNIVERSARY OF THE BOLOGNA DECLARATION (JUNE 2019)

The Alma Mater Studiorum - Università di Bologna, in collaboration with the Ministry of Education, University and Research, under the aegis of the Observatory of the Magna Charta Universitatum, invites Rectors and academics to celebrate the 20th Anniversary of the Bologna Declaration. A unique appointment to reaffirm the fundamental values on which the Higher Education Institutes are based. Among the topics covered, civil and ethical values, and sustainable development.

GLOBAL CITIZENSHIP EDUCATION IN ITALY: WHAT IS THE STATUS?

Meeting promoted by the International Research Center on Global Citizenship Education of the University of Bologna. A discussion and a reflection at national level on the current state of dissemination and implementation of the Global Citizenship Education in school educational practices and beyond.

THE IMPACT RANKING

The University of Bologna is so proud that its effort towards the SDGs have been certified by Times Higher Education. This ranking is the only global performance table that assess universities against the United Nations’ Sustainable Development Goals. In 2019, it was ranked as 9th in the World, among more than 500 universities.

More in details the University of Bologna is:
- 35th for Good Health and Well-being,
- 4th for Quality Education,
- 4th for Gender Equality,
- 6th for Decent Work and Economic Growth,
- 11th Sustainable Cities and Communities
- 21st for Partnerships for the Goals,

THIRD MISSION

RUS - NETWORK OF UNIVERSITIES FOR SUSTAINABLE DEVELOPMENT

Alma Mater has contributed to the establishment of the RUS - Italian Network of Universities for Sustainable Development, aware of the key role that universities play in the training of future generations and in the dissemination of knowledge within society, also with reference to the ability to promote sustainable development. This network is the first experience of coordination and sharing among the universities, with the main goal to spread the culture of sustainability. The main aim of the Network is the diffusion of the culture and good practices of sustainability, both inside and outside the Universities (at urban, regional, national, international level), in order to increase the positive impacts in environmental, ethical, social and economic terms of the actions implemented by the members of the Network, so as to contribute to the achievement of the SDGs of the Agenda 2030 for Sustainable Development, and in order to strengthen the recognition and value of the Italian experience at international level. The RUS is officially represented inside the seventeen working groups related with SDGs promotion.

ASVIS

The University of Bologna joined the Italian Alliance for Sustainable Development (ASvis) in order to increase its contribution to the process of transition to a sustainable society. We want to enrich our commitment to education for sustainable development and the dissemination of a culture of sustainability, recognizing the value of the UN Global Agenda for Sustainable Development and making its objectives its own.

IAU CLUSTER LEADER INSTITUTION ON GENDER EQUALITY

The IAU Cluster on HESD (Higher Education and Research for Sustainable Development) promotes the role that Higher Education Institutions globally have to fulfil in order to address the SDGs and Agenda 2030. Universities are at the forefront of the global universities’ work on the SDGs, which themselves impact on and transform universities. The Cluster encourages a holistic approach to the SDGs, focusing specifically on the whole institution approach.

COIMBRA GROUP

The Alma Mater is part of the Coimbra Group with the particular attention to the Working Group of Development Cooperation. The Coimbra Group was founded in 1985 and it is an association of long-established European multidisciplinary universities of high international standard, whose goals is to create special academic and cultural ties in order to promote internationalisation, academic collaboration, excellence in learning and research, and service to society. The Working Group of Development Cooperation is focused on global social responsibility of universities which requires their active engagement with development issues and challenges.
This document presents the methodological approach used to define the direct and indirect impact of the university's activities in their four dimensions - training, research, third mission and institution - in order to measure their contribution to the advancement of the United Nations 2030 Agenda.

This document was formulated by the Scientific and Technical Committee for Social Reporting at the University of Bologna from April 2020 to July 2020. The data presented herein refers to 2019, as well as A.Y. 2019/20 for training data.

Following the Rector’s introduction, the report presents the key figures of the University of Bologna, followed by 17 sections, each one dedicated to a U.N. 2030 Agenda goal, reporting the impact generated by the University of Bologna through its diversified activities.

In particular, each goal is reported on in relation to the four dimensions of activities carried out at the University of Bologna (training, research, third mission and institution, where available) using a set of metrics specially formulated to match and integrate with the institutional documents adopted by the University of Bologna.

The data comes mainly from the University Data Warehouse, a database powered by the Alma Mater Studiorum’s management systems, also drawing upon ad hoc surveys by the coordinators of the study programme, content analysis of research projects and cooperation programmes, and SCOPUS queries.

Below is a description of how certain metrics were quantified in the document.
Universities Ranking 2019/2020 comparable to the University of Bologna in terms of:

- **Benchmarking** includes universities within the top 10 European Universities ranked in QS World

INTERNATIONAL BENCHMARKING

The number of FP7, H2020 research projects active on 2019.

FP7, H2020, LIFE, INTERREG RESEARCH PROJECTS

The number of documents that have cited the author for a document’s publication in the DB Scopus.

“CITED BY” IN SCOPUS

The h-index was developed by the physician Jorge Eduardo Hirsh and counts the highest number of papers having at least the same number of citations. It expresses an easy to read 1:1 relationship between publishing articles and citations. In the bibliometric sectors is widely used to measure the scientific output of a research. Here is used to measure the scientific output of the University of Bologna, using the keywords’ clusters, extracted from each SDG, to contain and limit its topics and objectives.

H-INDEX

The number of students who could choose to attend a course unit “tagged” for that SDG in A.Y. 2019/2020.

STUDENTS

The number of active patents and vegetal varieties registered in 2019 by the university (both ownership and co-ownership), including their various international extensions.

PATENTS (INCLUDING NEW PLANT VARIETIES)

The number of cooperation and social engagement projects active in 2019.

COOPERATION, SOCIAL AND INDUSTRY ENGAGEMENT RESEARCH PROJECTS

The number of cooperation and social engagement projects active in 2019.

COUPNATIONS, TEACHING, MOBILITY

The Glass Ceiling index is the ratio between the share of women in the teaching staff (level A + level B + level C) and the share of women in the role of full professor (level A). The value of this index can vary from 0 to infinity. An index value of 1 indicates that there is no difference between women and men in terms of the probability of reaching the maximum career level (full professor); an index value lower than 1 means that the share of women in the maximum achievable role (full professor) is higher than their average presence among all teaching staff (level A + level B + level C); an index value higher than one indicates the presence of a “glass ceiling effect”, with women less represented in top positions (level A) than in the overall teaching staff (level A + level B + level C). In general, the greater the value assumed above one on the Glass Ceiling index, the stronger the glass ceiling, and the harder it is for women to take on leading roles within academia. See EU – Directorate-General for Research and Innovation (2014). She Figures 2015, European Commission, Brussels, p. 137.

GLASS CEILING INDEX

The Framework (Collaboration) Agreement represents the strategic engagement tool that allows the University of Bologna to strengthen long terms and trustful relations with industry.

UNIVERSITY-INDUSTRY FRAMEWORK COLLABORATION AGREEMENTS

The University of Bologna to strengthen long terms and trustful relations with industry.

This Agreement is based on a joint approach, where both the University and the industry share and develop collaborations across disciplines and programs, in order to increase results and avoid fragmentation within the institution. The University of Bologna has developed an internal support unit to coordinate such activities and to foster new collaborative actions with industry partners.

NATIONAL BENCHMARKING

Following the parameters used for the selection of the international benchmarking, three Italian universities were selected from the first 400 in the QS World Universities Ranking 2019/2020:

- Sapienza - Università di Roma
- Università degli Studi di Padova (Unipd)
- Università degli Studi di Milano
- Università degli Studi di Pisa
- Università degli Studi di Napoli Federico II

The Scopus research criteria and the index number calculation criteria were the same as that of international benchmarking.

Univsery Rankings 2019/2020

- University of Bologna, Italy
- University of Cambridge, UK
- University College London, UK
- University of Nottingham UK
- University of Leeds UK
- Sorbonne University FR
