The BANUU WP4 meeting was held in presence at the Department of History and Cultures (DiSCI) in Bologna on Friday, the 9th of April 2021 at 6 pm CET.

The meeting was opened by Nicolò Marchetti, scientific coordinator of the BANUU project, who introduced the participants and provided general remarks on the results achieved by the project so far. Then, Federico Zaina presented an overview of BANUU organisation and a resume of the workplan, highlighting the mission and the specific aims of the project. Licia Proserpio provided the participants with detailed information on **WP2 - Internships framing** and its results achieved so far, then supported by Eleonora Quirico who, attending the meeting via MS Meet, presented the program and the activities of **WP4 – Entrepreneurship activities framing**, providing information

about the participation and preliminary results of ongoing WP activities. This session was followed by a positive debate on the issues highlighted by the ongoing and future activities, such as the impact of Covid 19-related restrictions on active participation of participants to internship programs and which strategy has to be adopted to improve the coordination among partners on this subject. These themes were already discussed in the previous meetings.

At the end of the discussion, no further issue was proposed for discussion by the Consortium members thus the meeting ended at 7:30 pm CET.

The next meeting will be focused on the **WP3 – Pilot internship and their structuring in BA and MA courses** and **WP5 – Pilot entrepreneurship activities** workplan and activities. The Consortium members will soon receive the invitation to this meeting, foreseen in the second part of 2021.
