1. Academic activities carried out at the host university

Please give a brief description of the academic activities performed at the host university and the knowledge received thanks to the training emphasizing on your performance and the outcomes.

I attended as an observer in political economics class. It is knowledgeable for me. I found the class is interactive between professor and students. Most of the students actively participate in lecture. So, teaching style is student-centre approach. It is really what we should do in our university. Next interesting point is evaluation system. Each professor has their own evaluation method. I found that all methods are targeted to student to be professional in real world.

As we visited to Granada University to attend training for Master of Tourism, I mainly focused on topics which is related with Tourism. I tried to know how they design curriculum, which subjects are suitable for Myanmar, and how they link with different stakeholders for internship program, how they assess students’ performance. Moreover, visiting researcher in Faculty of Economics explained about the economics courses in Master of Tourism and bachelor of tourism. He explained in detail about the courses concerning with tourism economics.
