Public event	Time slot (CET)	Presenter
General presentation of HEFT results	9:00-10:00	MGEP
Specific presentation of technology innovations:		
Continuous Hairpin technology for Stator design and manufacturing	10:00-10:15	UoN
Multi-objective Rotor design and manufacturing	10:15-10:30	MGEP
Coffee break		
New magnet manufacturing in Europe with less REE and Magnet recycling	11:00-11:15	MAGNETI
Recovery and Direct Reuse of Permanent Magnets from EV Traction Motors	11:15-11:30	MGEP
Thermoset housing for the automotive industry	11:30-11:45	SUMIBE
Digital twin for EV powertrain	11:45-12:00	IKERLAN
Partial discharge free design for 800 V emotors	12:00-12:15	UNIBO
Questions and Discussion	12:15-12:45	
Visit to Electromobility lab and prototypes	14:15-17:00	MGEP
