

# INCO-Piles

International Consortium to recover CRMs  
from stockpiles/tailings targeting RIS  
1st Round Table

## Challenges on the recovery of Critical Raw Materials (CRMs) from tailings

December 11, 2020  
Bologna, Italy

### Key organisers

Dr. Francesco Tinti  
University of Bologna, Italy

Prof. Guido Sonnemann  
University of Bordeaux, France

Prof. Dimitrios Panias  
National Technical University of Athens,  
Greece

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

université  
de BORDEAUX

National Technical  
University of Athens

More information and registration  
<https://site.unibo.it/inco-piles-2020/en>

### Location

University of Bologna, Italy

Supported by

EIT RawMaterials is supported by the EIT,  
a body of the European Union

### Program

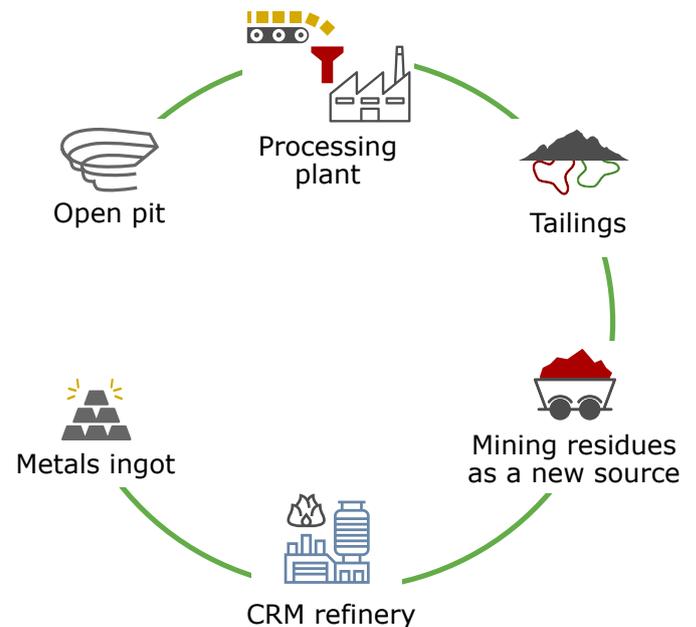

Registration and welcome

Keynote presentations | overview from  
policymakers, industry and researchers

Round table | discussions with experts

Technical presentations

Cocktail and networking with key  
stakeholders

### A glance at Inco-Piles

The project aims at establishing and developing innovative technologies for the sustainable extraction of CRMs from mining waste, with a focus on the EIT Regional Innovation Scheme (RIS) strategic area.

In addition to support best practices for CRM recovery, it aims at promoting technology transfer through the organisation of round tables with international experts.
