#### NT-4 Training in transferable skills and Research symposium with industry & business incubator

This event consists of two parts. The first-day workshop is a transferable skills training session organized by **IMDEA**. It will cover key concepts and practical tips on collaboration, experiment interpretation, presentation skills, scientific writing, as well as ethics and environmental topics. The workshop will be open to researchers outside this Doctoral Network (DN) to promote knowledge sharing across broader communities.

The second part is a two-day workshop organized by the industry beneficiary **BIOFAB**, focusing on research innovation and entrepreneurship skills. It will include tutorials and seminars on financial and IPR management, knowledge transfer, career development, company structures, and spin-off creation.
