

Co-funded by the Erasmus+ Programme of the European Union

Erasmus+ TOOLKIT Project National Cascade Training, Sri Lanka

on 18th January 2022 from 13.00 – 17.00 hours online

Universities around the world are moving comprehensively towards internationalization, and we are no exception. Internationalization is the process of developing, implementing and integrating an international, intercultural and global dimension into the purpose, functions and delivery of higher education. Recruitment of international staff, student mobility, research collaborations and capacity building are identified as major actions for internationalization. These actions will lead to improving HE quality, graduate employability and rankings in order to build an international profile, for universities in developing countries like Sri Lanka.

The International Relations Office of University of Peradeniya and the Centre for International Affairs of University of Kelaniya are organizing a training workshop with the aim to share its knowledge and expertise acquired during the training workshops held by the European Universities in the Erasmus+ TOOLKIT Project. The virtual event is hosted by the University of Kelaniya.
