## Added value for community partners

**sustainable relationship  
with the university**

**support for organizations work**

*For our work we really need help. We don't have the expertise. We like to have students for this kind of job. They are very motivated and also have a little bit more time than full day working people.*

**change of perspective  
from a university student**

**international experiences  
& European identity**

*Thanks to the students, we have the opportunity to learn more about the housing policies in other countries, taking inspiration to improve and develop the housing services we are carrying out locally.*

**deepen the work  
with and for the community**

*It's been very new, very nice. Our users enjoy the recovery workshops, (work on) memory, concentration lead by the students. They also value it very positively.*
