Paper and Presentation		5%
Attendance and class participation		5%
Quizzes		10%

The grade scale will be as follows:

<b>Excellence</b>	90-95
<b>Very good</b>	80-89
<b>Good</b>	70-79
<b>Average</b>	65-69
<b>Acceptable</b>	60-64

## Attendance

Mandatory, participation in the class activities

## Calendar

Basic and support material to be covered according to the homework/reports and their due dates:

Week	Subject
Week 1	Title: The scientific methodology (introduction) bibliography
Week 2	Title: Why is important to use the scientific methodology bibliography
Week 3	Title: The theory of scientific methodology bibliography
Week 4	Title: the citation methods bibliography
Week 5	Title: the scientific criticism bibliography
Week 6	Title: The criticism in the historical research bibliography
Week 7	Title: the types of scientific researches bibliography

<b>Week</b>	<b>Subject</b>
Week 8	Title: the contents of the scientific research plan bibliography
Week 9	Title: the research issue bibliography
Week 10	Title: the research theory bibliography
Week 11	Title: the research introduction bibliography
Week 12	Title: the researcher characteristic bibliography
Week 13	Title: the use and application of the technologies in the archaeological research bibliography
Week 14	Title: the use and application of the technologies in the archaeological research bibliography
Week 15	Title: the research publication bibliography
